Great news! FlipNpik will assist you to open your first Stellar wallet. We will send you information by email after your purchase. For now, you can check this video.

What's KYC?

Know Your Customer (KYC) is a process that has to be complied by financial institutions, whereby these set of institutions obtain information about the identity and address of the customers.

If by mistake you close the window before writing down the details, you can always find the transaction on your dashboard. Once the transaction is processed you will receive a confirmation email. It can take up to 48h to process the payment. Please check your spam box as well.

Finally, use the information given to complete the transaction from your bank. Don't forget to include this reference in your payment details.
